Curriculum

Shree Bir Amarsingh offers a NEB curriculum with a freshly updated practical syllabus. The school provides two types of curriculum: General and Technical Stream. The General Stream offers arts and humanities majors, while the Technical Stream offers computer engineering as a major. Computer engineering students must complete 600 hours of On-the-Job Training within their high school period to graduate successfully. The Technical Stream is taught in English, while the General Stream is taught in Nepali. The Technical Stream is the most rigorous course offered by Shree Bir Amar Singh School.

Grading and Ranking

Since the school follows NEB curriculum, it also follows NEB grading. The NEB newly updated grading System are as follows:

Interval in Percent	Grade Point	Grade	Descriptor
90 to 100	4.0	A+	Outstanding
80 to below 90	3.6	A	Excellent
70 to below 80	3.2	B+	Very Good
60 to below 70	2.8	B	Good
50 to below 60	2.4	C+	Satisfactory
40 to below 50	2.0	C	Acceptable
35 to below 40	1.6	D	Basic
below 35	NG	NG	Not Graded

Community

Shree Bir Amarsingh Secondary School was founded in 2014 BS (1958 AD). It is a public school funded by government of Nepal. Located in Birtamode of Jhapa district, this school has been providing education at minimal costs for everyone in the community. Its students' population is 100% South Asian.

School

Shree Bir Amarsingh is a public high school enrolling more than 1000 students from pre-elementary to Grade 12. Till grade 8, only general stream (primary language of teaching is Nepali) is available, but starting from grade 9, technical stream (primary language of teaching is English) is also added. Technical stream integrates pure science with engineering subjects to create a capable skilled student who can easily take on the rigorous classwork of colleges (specially for Computer Engineering and Computer Science). The school opened in April of 1958 AD and graduated its first senior class in 1971. Like most of the schools in Nepal, Grade 12 examination is conducted by National Examination Board (NEB).

Based on GPA on November 4, 2023

Grade Point Average (GPA) Calculation

The GPA is calculated on a yearly basis. Here, education in 9th and 10th grade concludes with the Secondary Education Examination (first stage of leaving examination in the secondary level), and education in 11th and 12th grade concludes with the School Leaving Certificate Examination (second and final stage of leaving examination in the secondary level). So, for 10th and 12th GPAs, respective examination board calculates the GPA, for 9th and 11th GPAs, it calculated by school. All 4-year GPAs are unweighted. The Cumulative GPA is calculated by adding four years GPA and dividing it by 4.
